AND PRESERVE THE  
WATERS OF  
PUGET SOUND

PUGET  
SOUNDKEEPER®

# Who Is Puget Soundkeeper?

Since 1984, our mission has been to preserve and protect the waters of the Puget Sound.

**We do this by:**

## Monitoring & Enforcing

We are on the water every week, year round, patrolling Puget Sound and its tributaries looking for illegal pollution and enforcing the Clean Water Act.

## Policy & Civic Engagement

Soundkeeper is deeply engaged in conversations around policy changes that impact the Sound. We tackle complex issues that need thoughtful solutions.

## Education & Stewardship

We partner with businesses, government and individuals to stop pollution before it enters Puget Sound.

# WANT TO MAKE A DIFFERENCE?

You can drastically impact the lives of all Puget Sound residents - human AND marine - by joining **PUGET SOUNDKEEPER** in our commitment to keeping our waters free of toxic pollution.

The image shows a web form for creating a campaign on GiveBigWa.org. The form is divided into several sections with numbered callouts:

- 1**: A text input field for a short, catchy title.
- 2**: A text input field for a custom URL, with the base address `https://www.givebigwa.org/` shown to its left.
- 3**: A large text area for the campaign summary.
- 4**: An "Upload File" button for uploading a photo.
- 5**: A text input field for a personal appeal message.
- 6**: A text input field for a video URL.
- 7**: A text input field for the campaign goal amount, preceded by a dollar sign (\$).

Other visible elements include a "Summary" link, a "Photo" section with the text "No file is currently uploaded.", a "Match Fund Available" checkbox, and a "Campaign Goal" section header.

1. Give your page a SHORT catchy title!
2. Create a custom URL that starts with `www.givebigwa.org/`  
example: `www.givebigwa.org/ilovewhales`
3. Write a SHORT, SIMPLE message that includes:
  - Why Puget Soundkeeper's mission to protect and preserve the waters of the Puget Sound is important to you
  - A direct request for a donation
  - A thank you and a request they share your URL
