

Recreational Checklist:

With the slow re-opening of parks and outdoor spaces, we put together an easy-to-follow checklist of safety protocols should you decide to join Puget Soundkeeper's Virtual Cleanup or any other outdoor cleanup activities that can be incorporated with neighborhood walks, trail hikes, kayaking, and recreational boating. Please follow these guidelines and stay safe.

Safety Equipment:

- Face mask
- Gloves
- Hand sanitizer
- Garbage bag

Safety Protocols:

- Maintain a social distance of 6 feet from other community members.
- When passing others (trail, sidewalk or on the water) use hand signals or be vocal about how you will safely pass.
- Always bring the recommended safety equipment during your recreational activity. We recommend bringing multiple pairs of each item in case gloves rip or items are misplaced.
- We strongly encourage you to use your own personal equipment. Do not borrow equipment from others.
- Be sure to wash hands thoroughly (20 seconds) after your outing with warm water and soap. Try to keep yourself from touching your face, mouth and eyes.
- Remember to please dispose personal protective equipment like face masks and hand gloves properly and safely.
